There's Something For

College life has it all—from sailboating in a recreation leadership class to performing with the Apache Belles at a Dallas Cowboys-Houston Oilers football game. Being in college at TJC also includes the opportunity to boogie at all-campus dances, to bleed for charitable causes and to wear your Apache spirit.

Everyone . . .

The Apache cheerleaders lead an excited crowd at a weekly pep rally. The '78 football season—with its hope of a conference title—caused a marked increase in Apache spirit. Game days were color days. Black and gold t-shirts all over campus indicated interest was high.

Revival of

Spirit at TJC

'79 Apache Yearbook Staff

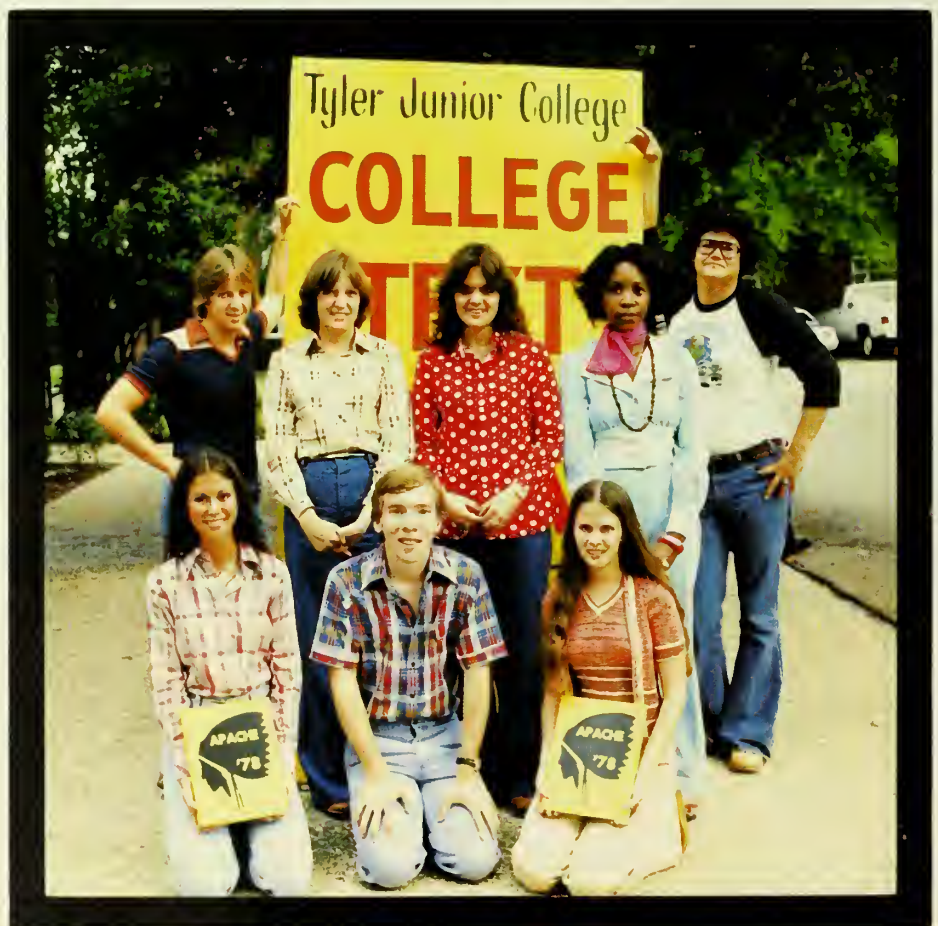

Top left: Editor CYNTHIA FIERRO.

Top center: Standing on sign are JILL LEATH and photographer PAUL CARMICHAEL. Standing below from left are photographer VICKI POWELL, GEORGE ALEXANDER, JON RUSSELL GALBREATH and photographer TRACE HALLOWELL.

Top right: Photographer BRUCE JONES.

Bottom left: Standing from left are MARTY NELSON, SANDRA FLEMING, DEBBIE CLARK, MARILYN PETTIGREW, ALDEN CLANAHAN. Kneeling are MARY FLOURNOY, RUSSELL HERBST and GAYLE GULLATT.

Front row from left are DEBBIE CLARK, SANDRA FLEMING, VICKI POWELL, GAYLE GULLATT, RUSSELL HERBST, JON RUSSELL GALBREATH.

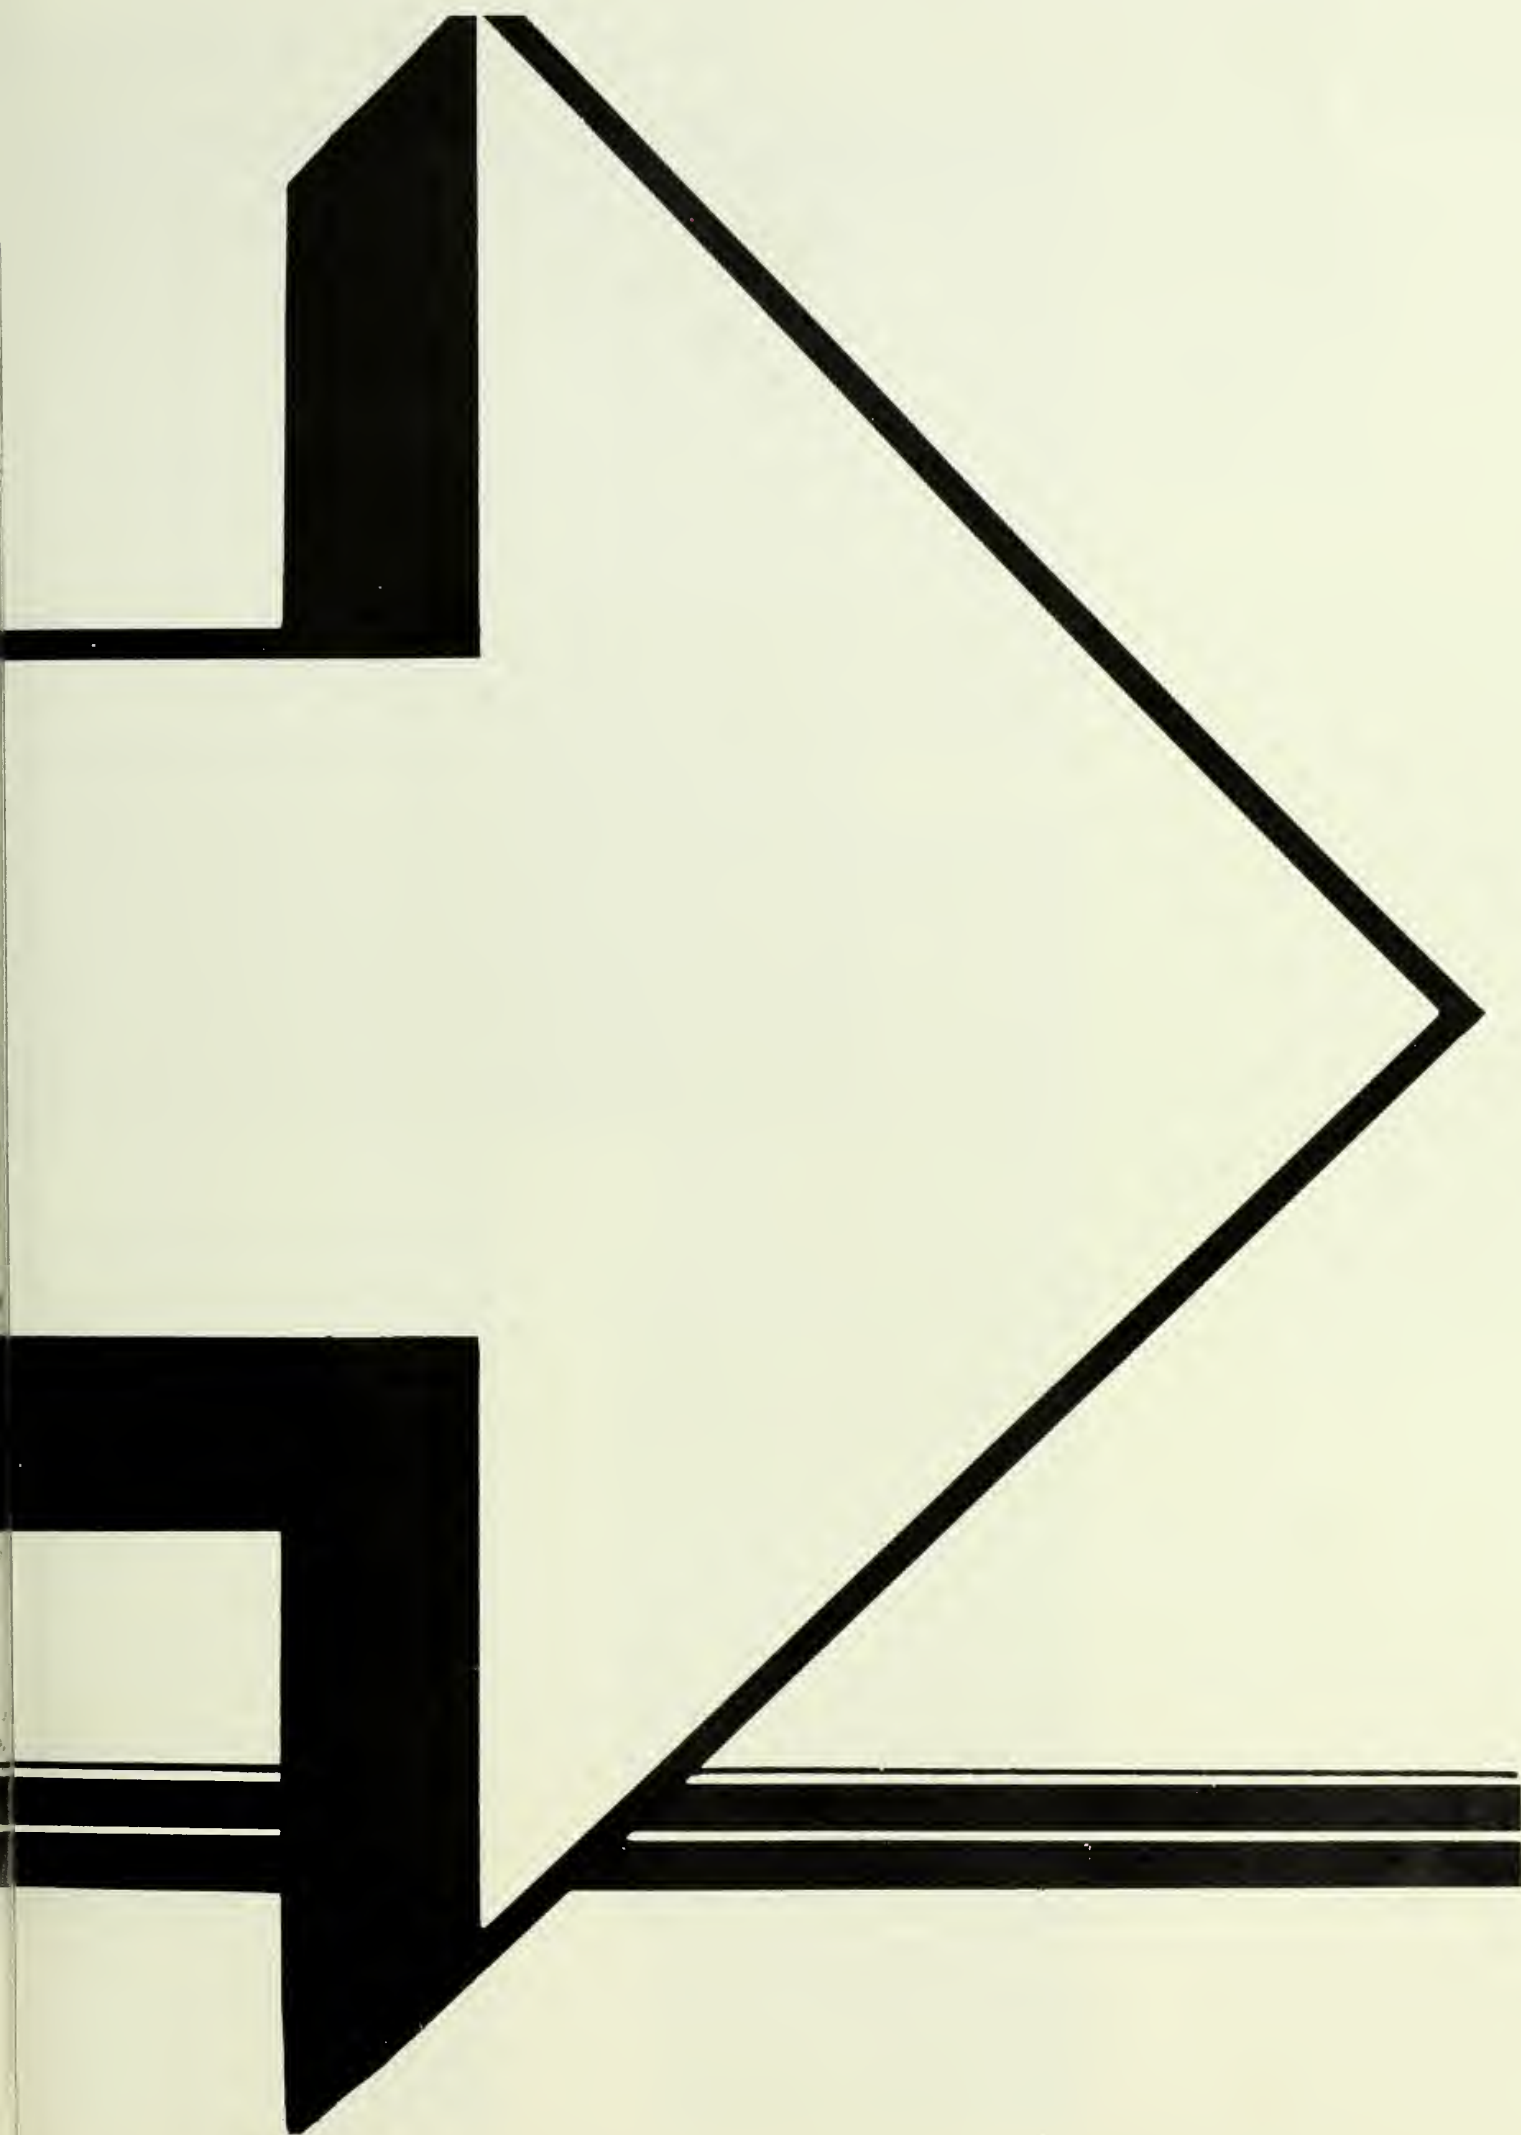

ADMINISTRATION FACULTY

1979

Tyler Junior College

The nine-member Board of Trustees of Tyler Junior College is the policy-making body of the TJC District. The Board of Trustees charts the future and determines policies that affect the daily operations of the college.

The TJC District comprises most of Smith County and a part of Van Zandt County, including nearly 900 square miles.

Texas Eastern School of Nursing

Texas Eastern School of Nursing is a three year diploma program, fully accredited by NLN and by the Board of Nurse Examiners for the state of Texas. Graduates are eligible to take the examination for certification as registered nurses and are eligible to apply for registration by endorsement in other states.

The liberal arts and science courses are taught at TJC. Nursing classes are at the School of Nursing and taught by nurses. The school is located at 801 Clinic Drive within walking distance of the college.

Clinical laboratory experience in medical and surgical nursing, maternal and child nursing, and operating room nursing is provided in Mother Frances Hospital and Medical Center Hospital. The clinical medical facilities of the hospitals and Rusk State Hospital are used for the laboratory experience in psychiatric nursing.

Helene Fuld School

There are approximately 125 schools in the United States and abroad which are Helene Fuld Schools. Texas Eastern School of Nursing was accepted into the "family" of Helene Fuld Schools of Nursing summer '76 with awards from the Helene Fuld Health Trust which provided equipment to furnish 16 new learning carrels for the learning center located on "A" wing.

The skills lab provided by the Helene Fuld Trust is equipped with seven complete bedside units, two pediatric units, six learning carrels, teaching models and other equipment necessary for teaching nursing skills.

On campus production facilities are adding to the 395 major audio visual titles already in the center's holdings. All equipment for this lab is furnished by Helene Fuld Health Trust.

A beautiful new center opened in fall '78 to offer a new dimension to nursing education. Students have the opportunity to become mentally and physically fit through a planned exercise program for the individual. The building and its equipment are furnished by the fund.

SAVING TIPS

on electric air conditioning

Central Systems

1. Set thermostat on 78°, or higher.
2. Have equipment checked seasonally by qualified serviceman.
3. Check filter every 30 days. Clean or replace when dirty.
4. Keep furniture, draperies away from air outlets and returns. Clean grills often.
5. Close draperies and blinds to keep out sunlight.
6. Keep fireplace damper closed.
7. Proper home insulation keeps heat out, cuts energy use.
8. Weatherstrip doors and windows. Caulk cracks.
9. Keep windows closed. Open outside doors as little as possible.

Window Units

Follow above suggestions, plus these:

10. Buy units with *highest* "energy efficiency ratio" (EER). If EER is not on sales tag, ask for it or figure it yourself. Divide "wattage" into "BTU" capacity.
11. Place unit where it'll get as little direct sun as possible.
12. Aim air outlets at lower half of doorway to next room to allow warm air from that room to enter at the doortop for recooling, recirculation.
13. Never vent air conditioner into garage. Ventilation is usually too poor for top performance of your unit.

Conserve electricity and you help conserve one or more of the fuels needed to produce it. Conserve fuels and you help assure that there will be enough to meet essential needs for electricity in the future.

If you would like additional information on conserving electricity, call the Customer Service Representative in the TP&L Office.
